JSR 358 Update

July 8, 2014

IP Working Group meetings

- During the May f2f meeting we agreed to re-start the IP Working Group meetings.
- We agreed on two sets of meetings:
 - Further discussions (with lawyers present) on the UPL
 - Separate discussions (with no need for lawyers) to pursue the use-case examination of the flat-IP proposal and to propose a new "strengthened Exhibit B" (now called the *Employer Contribution Agreement*).
- After conducting Doodle polls we chose to meet on Fridays at 11:00 am Pacific Time.

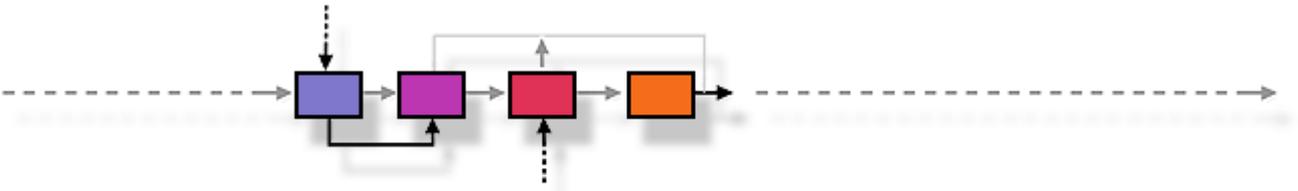

UPL discussions

- Since the last EC meeting we have held two meetings (with lawyers) to discuss the Universal Permissive License (UPL).
- During the first (June 20) we gathered input from EC members.
- The second (June 27) was more interactive, with discussions between EC members' lawyers and Jim Wright (the Oracle author of the UPL).
- See the [JSR 358 Document Archive](#) for meeting minutes.
- The next UPL meeting will be held on Friday July 11.
- We will pick up the other (non-lawyer) topics later.
