Java Community Process

Agenda

- Roll call
- Update on JCP.org login changes
- Adopt Programs summit @ Devoxx UK
- JCP.Next update
  - JSR 358: A major revision of the Java Community Process
  - JSR 364: Broadening JCP Membership

Agenda

- Roll call
- JCP.org login changes
- Adopt-a-JSR Summit
- JCP.Next update
  - JSR 358: A major revision of the Java Community Process
  - JSR 364: Broadening JCP Membership

JCP.org login changes

- jcp.org now uses Oracle's Single Sign-On (SSO) to log in to the site.
- Your login ID is your e-mail address; the old JCP user-IDs are no longer used.

Current JCP.org users

- Click the "Sign In" button on the left to log in using your SSO credentials. If you do not have an SSO login, you will be asked to create one.
- When creating an SSO login, make sure to use the same e-mail address as used in your JCP account.
- If you are unsure which e-mail address you've used before, or if you run into other problems with logging in, contact admin@jcp.org.

New to JCP.org?

- Click "Register for site" on the left and follow the directions.
- You will be taken to create an SSO login on Oracle's profile page and then may log in to jcp.org once the account is created and verified.

Status of the SSO transition

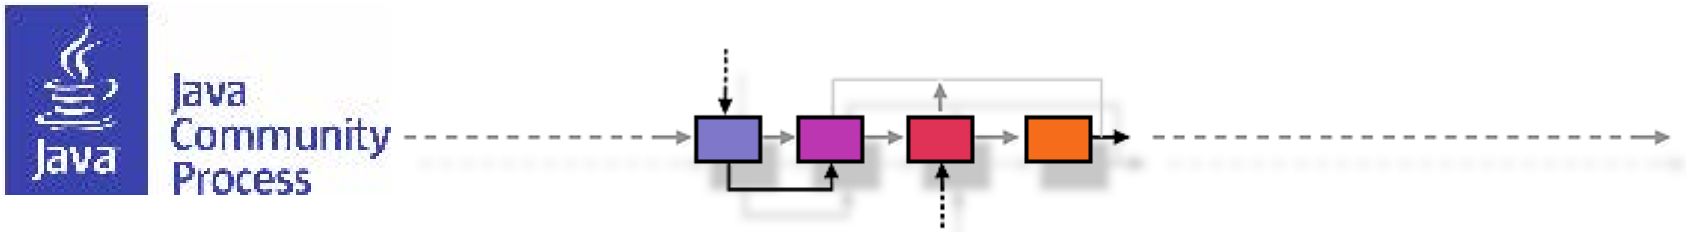
- The SSO login transition for JCP.org is still ongoing.
- We expect to resolve most issues this week (May 11-15).
- If you have any problems logging in please contact admin@jcp.org for assistance.
- Some of you may have received a message last week from Oracle Marketing informing you of your SSO account creation.
  - These messages were simply delayed from when the SSO accounts were created last month.
  - If you haven't already done so, please follow the instructions in the email message.
- For more detailed information refer to our SSO FAQ.

Adopt Programs summit (1)

- Part of Devoxx UK in London.
- Wednesday, 17 June from 10:00 - 18:00
- An opportunity for JUG leaders to share knowledge and learn how to participate in the Adopt-a-JSR and Adopt OpenJDK programs.
- Hands-on activities for technologies currently under development.
- Sessions:
  - Adopt OpenJDK.
  - Adopt-a-JSR.
  - How to run a Hackday

Adopt Programs summit (2)

- Interactive Panel Discussion.
  - Speakers include Spec Leads, Evangelists, Java User Group, JCP, and OpenJDK leaders:
  - Patrick Curran, Daniel Bryant, David Delabassee, Antoine Sabot-Durand, Leonardo Lima, Mani Sarkar, Heather VanCura, Richard Warburton.
- 50% off Devoxx UK discount codes for JUG leaders available; contact Heather for details.



Thank you!
