

## Public Final Draft - Questions JSR 354

1. **License terms** which will apply to the Final Release specification, Reference Implementation and Technology Compatibility Kit **did not change from what was submitted previously.**

2. **A. Does the specification include software codes in the following format:**

- Binary : **No**
- Source (compilable) : **Yes**
- Javadocs : **Yes**

**B. Do the codes or the spec call on, contain, use or demonstrate encryption technology? No**

3. The **anticipated date** when the PMO will receive the materials for the **FAB** is in about 1 week, so **mid of March 2015 the latest.**

4. Full licenses provided at Early Draft Review/Public Review for the Final Release spec, RI and TCK all are unchanged.

1. The [checklist for transparency](#), with specific answers for your JSR. Include URLs of any other sites or services you use.

5. Transparency check list: all communications were going over public mailinglists on java.net. Source and Homepage are freely available from GitHub.

- Public Mailinglist: <[jcurrency\\_mail@javamoney.java.net](mailto:jcurrency_mail@javamoney.java.net)>
- Java.net Project (with JIRA, Wiki, ...): <http://java.net/projects/JavaMoney>
- GitHub RUM: <http://github.com/JavaMoney>
- jcp.org (JSR's info page): <https://jcp.org/en/jsr/detail?id=354>

6. The current version number of the specific specification document is 1.0-RC3. The anticipated release date is end of March 2015.

The spec lead's **full corporate address** is:

Anatole Tresch  
CREDIT SUISSE AG  
KGVX  
Üetlibergstr. 231  
Postfach  
CH-8045 Zürich

The uploaded zip, containing Spec, API Javadoc and the current version 1.0-RC3 released code base and the licences is available at <https://jcp.org/en/egc/download/Proposed+Final+Draft.zip?id=354&fileId=5089> .
