

Java Community Process (JCP) Program Executive Committee (EC) Participation Record

17 November 2009 - 9 November 2010

These statistics on participation (EC ballots voted and EC meetings attended) by the JCP program EC members were compiled by the JCP Program Management Office (PMO). The record runs from November to November because these EC members took office in November 2009. Time Warner Cable Inc. resigned mid-term, so they have not been included in the statistics. Sun Microsystems was acquired by Oracle, so they have not been included in the statistics in SE/EE and they have been included as Oracle in ME. CableLabs joined the EC in February 2010, and Credit Suisse and TOTVS joined the EC in May 2010; their statistics have been adjusted accordingly. Please contact pmo@jcp.org if you have any questions.
